About

I'm a solution driven Scrum Master with 4 years of experience in ITSM for Banking domain. I've led team on Access Management Platform, Incident Resolution and Infrastructure Capacity Planning fostering Agile Principles. I'm CSM® certified and looking to work on products and projects with challenging and interesting problem statement.

Work Experience

Tata Consultancy Services (for American Express)

Bangalore, India

SCRUM MASTER (PROJECT TEAM LEAD)

Mar. 2018 - Mar. 2020

- Organized and facilitated scrum ceremonies - daily standups, sprint planning, sprint review, and retrospective to deliver enhancements and new integrations for access management team.
- Ran a Kanban board to handle regular support activities in a first-in-first-out model for high velocity tasks.
- Managed backlog and release planning with product owners to ensure monthly and quarterly release cycles.
- Technically ensure capacity planning for infrastructure by understanding performance of servers in current architecture.
- Technical reviewer for change management on environments to ensure minimal impact of changes on existing system architecture.

Tata Consultancy Services (for American Express)

Bangalore, India

SYSTEM ENGINEER

Mar. 2016 - Mar. 2018

- Development, maintenance and implementation for CA SiteMinder product suite - Policy Server, Web Agent and CA Federation.
- Configuration of policy servers for upgrades, certification renewal and rotation.
- Integrating applications to OAuth2 flow for several environments (development, quality assurance and production).
- Built proficiency in tools such as Splunk, CA APM, HP sitescope, Oracle Goldengate, Dynatrace to analyse server traffic and incident resolution.
